

## Legal

---

**V041      Work Zone Safety - Legal Liability**

Discusses the legal liability involving work zones.

**V043      Local Government on Trial**

2 part video describing the trial process.

Part 1 - The Deposition: Follows a district engineer through the process of giving a deposition. Outlines the purpose of the deposition and provides some advise for giving depositions. Looks at some of the kinds of questions that may be asked.

Part 2 - The Trial: Provides the viewer with a moot civil trial. The trial is based upon a fatal automobile accident on a newly reconstructed section of highway where excessive drop off to the road shoulders was blamed as the cause of the accident by the plaintiff (victim's family). The plaintiff sues the contractor and the township where the road is located. Good video for Local Agency Officials whom may be facing litigation involving a work zone related crash.

**V096      Caution, Litigation Ahead: The Road to Effective Risk Management**

This video explains how planning, organization, and training for safety can reduce tort liability.
